

Read pp 48-55

Select one form of cancer from the following list, or from elsewhere.

- Lung cancer
- Breast cancer
- Colon cancer
- Prostate cancer
- Cervical cancer
- Leukemia
- Lymphoma
- Rectal cancer
- Skin cancer
- Bone cancer
- Non-Hodgkin lymphoma
- Endometrial Cancer
- Thyroid cancer
- Pancreatic cancer
- Bladder cancer

For the type of cancer chosen, research some details related to the following:

- Is this cancer triggered by the environment, is it hereditary, or both?
- If there are identifiable causes of this cancer, describe them.
- Describe how this cancer is detected and diagnosed.
- Describe steps that can be taken to reduce the risk of contracting this form of cancer.
- Describe the forms of treatment, and effectiveness of treatment for this form of cancer.

Summarize your research in a report. This report should be no more than two pages (@ 1000 words). Reference your sources.

Criteria	Level 1	Level 2	Level 3	Level 4
Report information	• missing much of the information needed	• missing some information	• complete information	• information included beyond the scope of the project
Communication of information	• communicates with limited clarity	• communicates with moderate clarity	• communicates with considerable clarity	• communicates effectively with a high degree of clarity
Spelling and Grammar	• > 5 mistakes	• 3-5 mistakes	• 1-2 mistakes	• no mistakes
References	No references	Poorly referenced, limited number of sources	Referenced appropriately, a number of different sources	Well referenced, a wide variety of sources from different media.

Hand in this sheet with you report.
